Full Stack Web Developer

## About Me

I am a passionate Full-Stack Web Developer with a strong foundation in HTML, CSS, JavaScript, and Django. My journey in web development has been driven by an insatiable curiosity and a commitment to continuous learning. I thrive on the thrill of turning ideas into functional and visually appealing websites and applications, and I believe in the power of technology to make a positive impact.

## EXPERIENCE

### Present

I am currently engaged in the development of a social media website using Express.js and Node.js. This project entails creating a robust and scalable platform that enables users to connect, interact, and share content seamlessly. Leveraging the power of Express.js and Node.js, I am implementing features such as user authentication, real-time messaging, feed customization, and content sharing functionalities.

### The Angaar Batch

#### Full Stack Web Developer

July 2023 - Sept 2023

- As a Full Stack Web Developer in the "Angaar" batch, I brought three months of hands-on experience and a strong drive to continuously improve and grow in this dynamic field
- During that relatively short time, I gained valuable insights and practical knowledge that enabled me to contribute effectively to web development projects
- Additionally, I take great pride in having independently created a website for IRCTC, showcasing my ability to design and develop user-friendly and efficient platforms that cater to a diverse user base.

### GLACODECHEF CODEBUSTERS

#### Event Associate

July 2023 - Present

- As an Event Associate at GLAU Codechef- Codebuster, I'm really good at making sure events run smoothly. I love planning every little detail and coordinating things on the day of the event. I'm passionate about creating awesome experiences that people will remember.
